PROFESSIONAL SUMMARY

“Distinguished career in utilizing advanced business analysis and modelling techniques to drive decision-making and support the development of robust, scalable products and solutions that align with business objectives and enhance operational efficiency.”

An Accomplished Business Analyst with 14+ years of experience in leading transformative business initiatives by leveraging cutting-edge technology solutions to optimize operations and drive growth. Ability to bridge the gap between business needs and technology solutions to deliver impactful results. Highly competent in gathering and translating business requirements into actionable insights that drive decision-making and support product innovations. **Renowned for expertise** in leading projects, orchestrating all phases, from planning and resource allocation to execution and delivery while navigating complex project landscapes and mitigating risks. A trusted advisor to senior leadership, delivering data-driven insights and technology roadmaps that translate complex business needs into scalable, future-proof IT ecosystems and high-impact products. **A strong record of success** in shaping and executing product visions that drive user engagement, scalability, and market success with expertise in defining product roadmaps, managing end-to-end product lifecycle, backlog prioritization, stakeholder management, and leading Agile teams.
